SAINT LUKE'S HOSPITAL

Greetings

to you the Class of 1952 of St. Luke's Hospital School of Nursing from the Board of Trustees, the Nursing Council, the Woman's Board, the Medical Board, the Alumnae Association, the Administration, the University of Illinois, and your Faculty.

I would like to tell you a brief story of a vision and an accomplishment of a noted English writer. He sat in his garden one early winter day and through the tracery of an old pear tree looked up at a brilliant blue winter sky. "The bare branches enclosed islands of blue sky, some small, some large, irregularly shaped as if in the tracery of a decorated window and there passed through them, dipping and poising in his flight, a sea gull dazzling in his winter plumage. Instantly the design for which I had been searching so long through inaudible sermons flashed upon me. In each of the blue islands in the tracery of the west window there should be an angel swooping downward, and the top half of the three center lights should be blue sky full of descending angels who alighted on the roof of the stable at Bethlehem."[1] So a design for a beautiful church window was born, a design that became a window full of beauty and inspiration to many.

What have you learned at St. Luke's that will make strong and beautiful your design for living as a woman and a nurse? Design depends on values; a distinguished educator in engineering of the present day writes, "To what ends will professional men direct their energies and abilities? In our democratic country, where the people handle their own affairs, an intelligent answer to this question is mandatory and the answer turns on a sense of values especially the values by which men live and work."[2] Our values determine our judgments and our decisions and finally our actions. This educator goes on to ask: "What relative weight in our own minds will we assign to such values as personal advantage where this is placed along side the values of ethical professional behavior; what relative weights will we assign to the value of our own time and personal convenience on the one hand and to the value of our services as educated nurses to our community and to our country on the other. Surely as young graduates of St. Luke's Hospital School of Nursing you can ask yourselves these questions and many others.

We have had an amazing demonstration of Faith in us from our Board and Administration, in the restoration of the Ryerson Lounge made just as beautiful, if not more beautiful than it ever was before, for us, for relaxation and enjoyment so that we can be better nurses; particularly for us because our Board takes pride in our School and in our services to the Hospital and Community.

May you make for yourselves a design for living which can become a beautiful accomplishment. This design based upon selection of values which will make of you better women, better nurses, and better citizens.

Yearbook Dedication

We, the class of 1952, sincerely and humbly dedicate the Cap and Cross to Miss McConnell, who through our three years of training, gave us constant guidance, encouragement, and ethical supervision to help us attain the goal which we had set before us.

In Appreciation

To Miss Allison Myers we say "Thank You" for your sympathetic understanding. Only through your leadership were we able to attain many of our goals. In and out of the classroom and in your off duty time, you were always ready to hear our problems and difficulties, no matter how trivial.

In the years to come we shall always remember and cherish our pre-clinical period. During this time we received the inspiration and guidance of Miss Elizabeth H. Wright. She not only gave us our basic principles of ideal nursing, but gave us her time, patience, friendliness and understanding.

We cannot actually express our true gratitude for all she has done for us and meant to us, so we can only say—just "Thank You".

In Appreciation

The class of 1952B will remember you for many things, Mrs. Mauksch. First of all for giving your guidance and excellent instruction to us as pre-clinical students. You taught high standards of nursing care and inspired us to carry them out. We soon left nursing arts and were capped; but you did not forget us then. You have continued to give countless hours of interested and wise counsel. As class advisor you have been an active counsellor and friend. It is with deep sincerity and appreciation that we say thank you for everything.

To you, Mrs. Bell, we express our sincere appreciation.

We will remember you for your charming smile and friendly greeting that made us feel welcome as newcomers to Schweppe; for your untiring efforts at Schweppe parties; for the quiet talks and friendly advice when problems arose; for your sympathetic understanding of young women away from home; and above all, we will remember you for having given us the privilege, after a difficult day, to return—not to a residence—but to a home.

School Hymn 572

Oh Master, let me walk with thee
In lowly paths of service free;
Tell me thy secret; help me bear
The strain of toil; the fret of care.

Help me the slow of heart to move
By some clear, winning word of love;
Teach me the wayward feet to stay,
And guide them in the homeward way.

Teach me thy patience; still with thee
In closer, dearer company,
In work that keeps faith sweet and strong,
In trust that triumphs over wrong.

In hope that sends a shining ray
Far down futures broadening way,
In peace that only thou canst give,
With thee, Oh Master let me live.

Probie Song

Is it true what they say about Probies?
Are they green as the grass in the spring?
They all think they are Garboes,
Or nightingales and such,
You can always tell a Probie,
But you can't tell her much.
They're in training to be educated,
How the faculty can stand them we don't know,
But they're crazy about it,
There's no doubt about it,
Probies, here's to you!!

St. Luke's Prayer

Almighty God, who didst inspire thy servant Saint Luke the physician, to set forth in the Gospel the love and healing power of thy Son; Manifest in Thy Church the like power and love to the healing of our bodies and our souls, through the same, Thy Son, Jesus Christ our Lord. Amen.

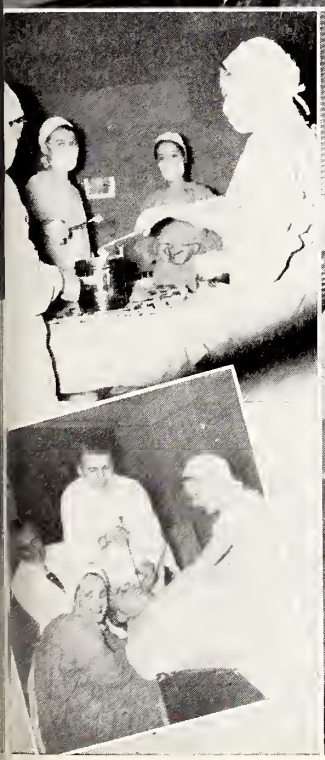
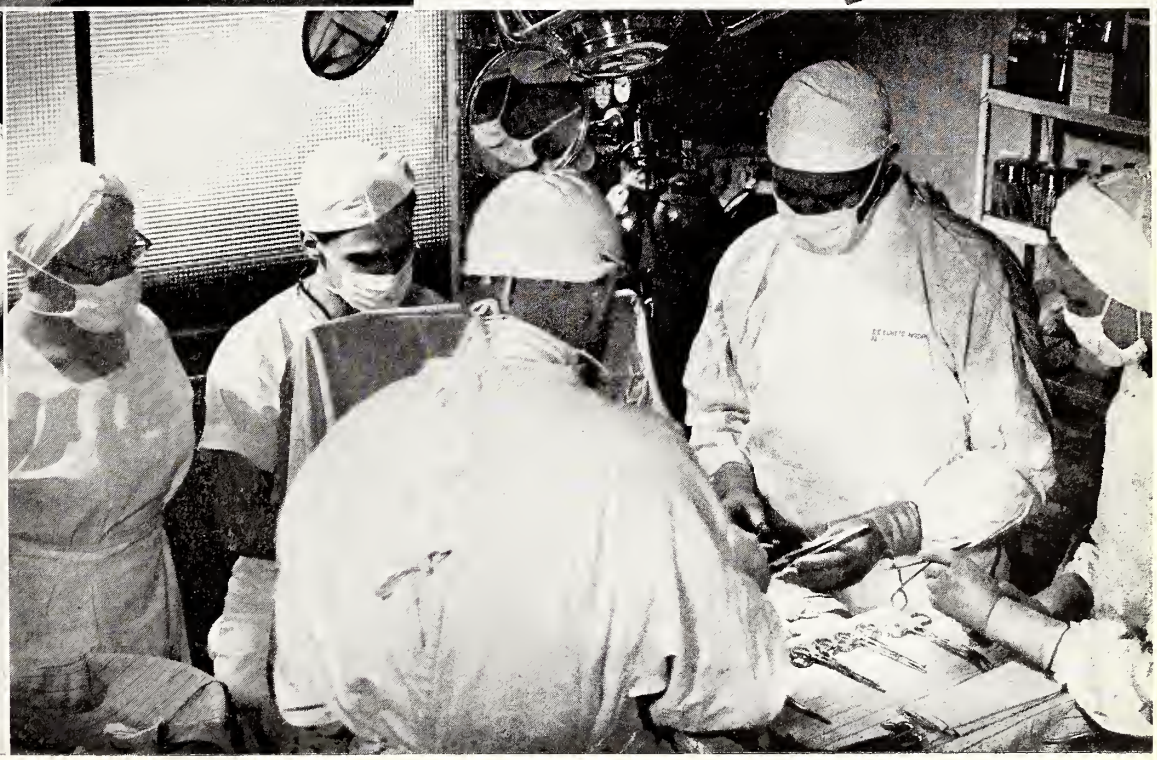
In Our Time

. . . the Operating Room

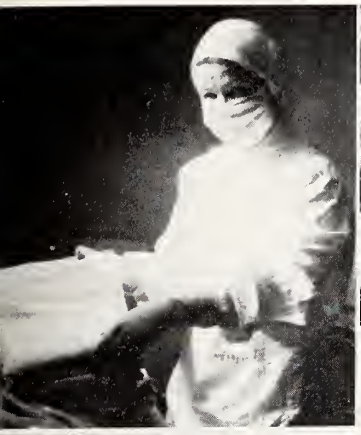
Do you remember—gowning and gloving; scissors and sutures; standards and sterile tables; and a familiar saying, "Darlink, how can you be so beautiful, but *so* dumb?"





. . . Obstetrics

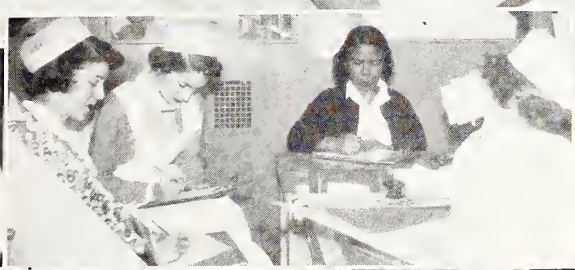
Do you remember—the pre-cips and the post partums, fetuscope and forceps, the watching and waiting? Then finally the long trek was over—the result—two proud parents, a new baby for the nursery, and the crew was ready to put up their sails and start out again.



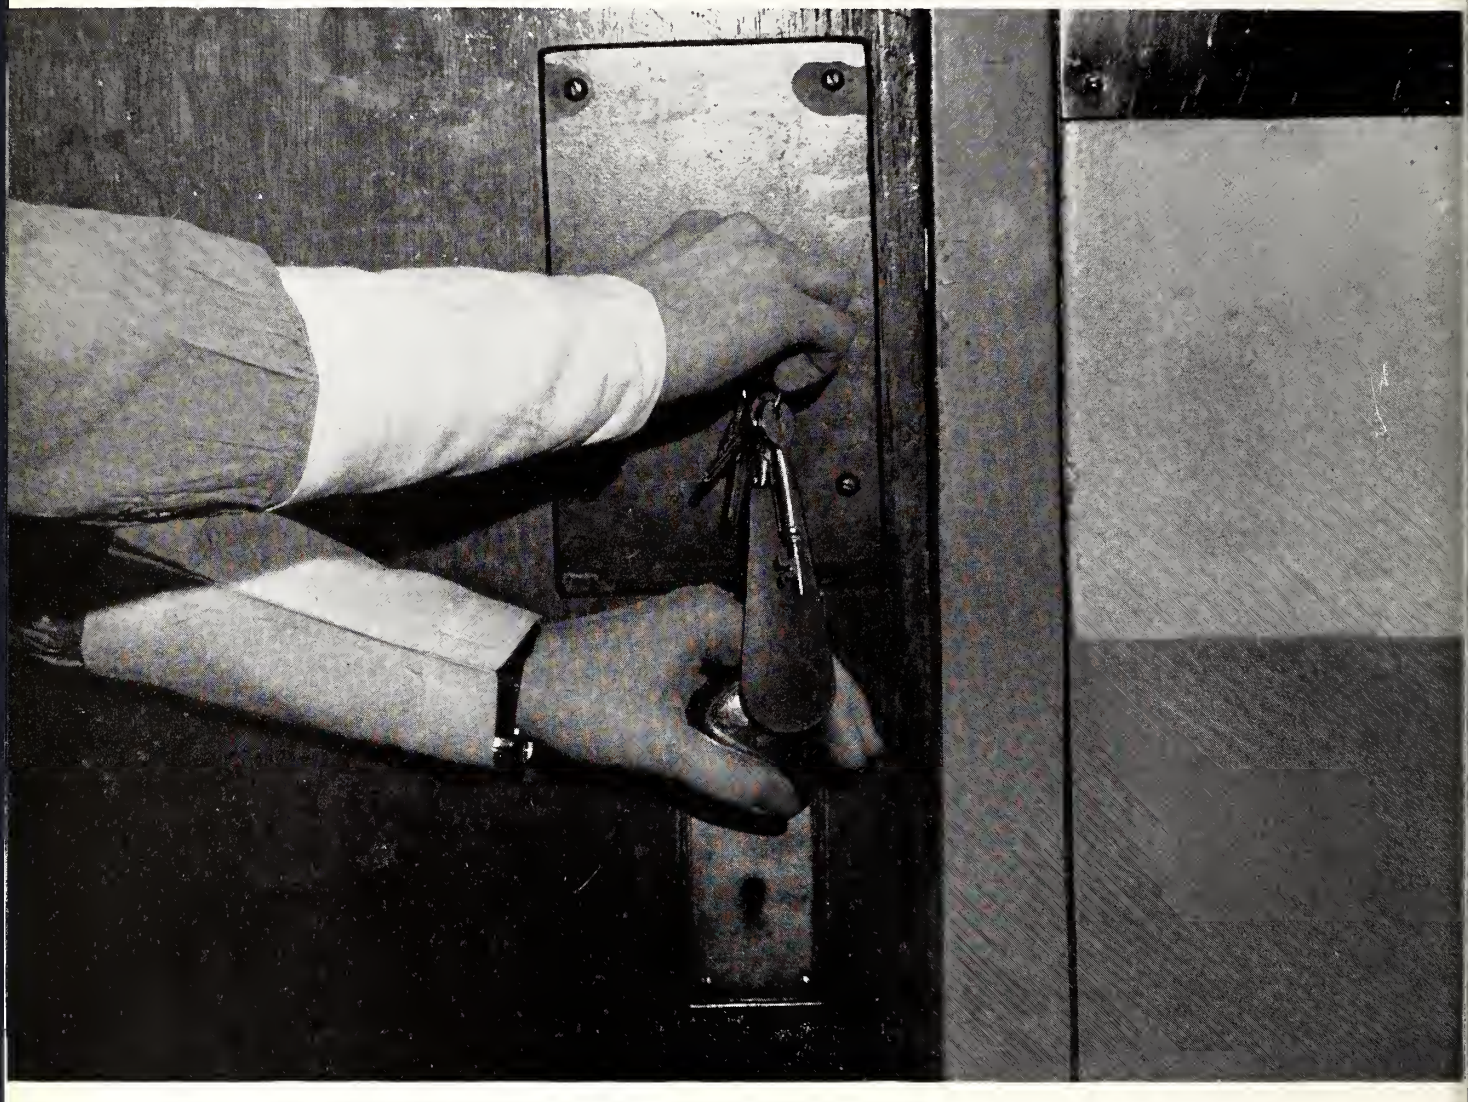
. . . Pediatrics

Do you remember—the drawings on the walls, the noise and the nonsense, and the chatter and chants of those little ones on M-8?

It was a challenge to our patience, and our tact—it was the survival of the fittest—but the memories shall linger on—



...Psychiatry



Do you remember . . . the canasta you played, and the chess games you attempted, the T.V. and the treatments, the night rounds and the nourishments . . . and the satisfaction felt when the census became one less?

It is so easy to remember and so hard to forget the days which were so memorable.

The Re-Opening of the Ryerson Lounge

Words cannot express the joy and gratitude felt by the St. Luke's family upon the re-opening of the beloved Ryerson Lounge. Our sincerest thanks go to Miss Cornelia Conger and Mrs. Newton Perry for their untiring work toward its completion; and to the Board of Trustees and Women's Board, without whom the work could not have been accomplished.

To Dr. and Mrs. J. S. Grimson we express our appreciation for the beautiful grand piano which helped to bring back to us our treasured Lounge now more beautiful than ever before.

We, the senior class, are particularly grateful, as the graduation reception would have had little meaning for us had it been held in any other place than Ryerson Lounge.
